

Learning for a new World

Our school briefly explained

Freie Schule Ostfriesland
Free School Eastern Frisia

Who are we?

- We are 9 people in the outer northeast of Germany who believe that everyone wants to learn.
- We want to enable individuals to learn self-determined and self-responsible - everyone knows best what, when, where, how, and with whom.
- Founded as a non-profit organization in 2016, we operate a free Primary School since summer 2018, and want to extend to a secondary school in 2020.
- We are open, pragmatic, thoughtful, empathetic and able to execute - like our pupils 😊

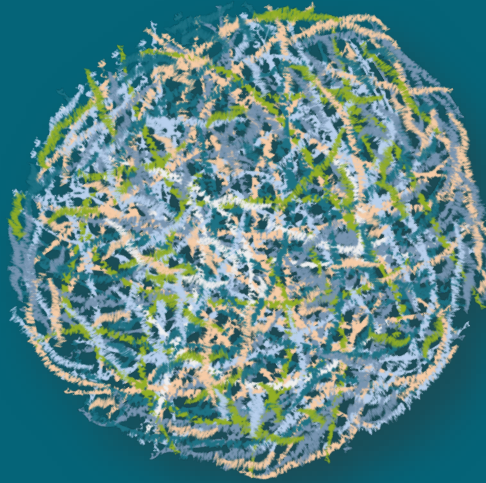

Our Core Values

Candor

- Connect with the world
- Allow new experiences
- Show yourself
- Be curious

Competence

- Know your tools
- Become proficient in what you do
- Be proud, modestly

Esteem

- Respect others and yourself
- Act sustainable
- Foster your relations
- Create opportunities

Literacy

- Explore your potential
- Reflect who + where you are
- Build models of the world

Our Pedagogic Foundation

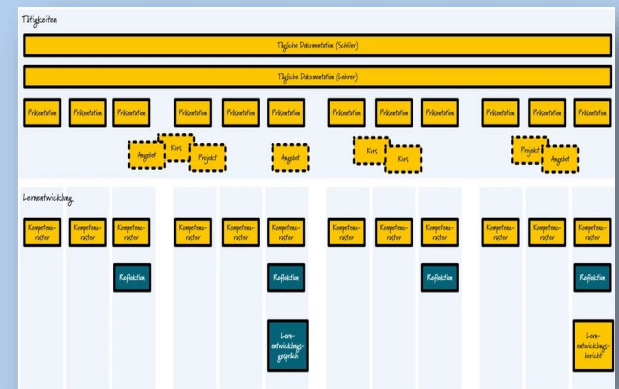

- Pupils are competent learners
- Everyone is responsible to create the environment they need
- Regular reflections reveal individual passions, strengths and aims
- Tutors help the pupils as coach and advisor
- Experts can support connecting to areas of interest
- Democratic participation is an essential learning topic
- We are connected with the world and stay compatible with regulatory requirements

Social competence	Emotional competence	Communication and Media	Creative Arts	Ethics and Religion
German	English	Mathematics	General Science	Own Projects
